

Open Day at the Rives de Bramois on 25 September 2021

Tolochenaz, 17 September 2021 – Ideally located at the Gates of Sion, the new Rives de Bramois district has taken shape. Its structures are already almost complete. Steiner AG is offering those interested in buying a new home the opportunity to learn more about the project and discuss it at an Open Day on 25 September 2021.

There are only 19 units left, ranging from 3.5 to 5.5 rooms, out of the 110 lots in the new Rives de Bramois district. An exceptional discount of CHF 2,000/room will be granted for all reservations signed during the Open Day. Those wishing to take part in this day on 25 September 2021 can register through the website <https://les-rives-de-bramois.ch/>. A Valaisan aperitif will be offered throughout the day, as well as entertainment for young and old.

An eco-responsible project

The project developed by Steiner SA is characterised by its green environment and the quality of the new buildings. The Minergie-certified complex will comprise eleven buildings with generous outdoor facilities. In addition to enriching the social life of the neighbourhood, these outdoor spaces will allow for the cultivation of vegetables in collective gardens and the production of honey thanks to the presence of beehives. The solar electricity produced on the site will mainly be consumed on site thanks to the establishment of a consumer group.

The structures of eight of the eleven buildings are already completed. Steiner teams have already begun interior work, including window installation and plastering. To thank the teams working on the site, Steiner is organising a site bouquet on 24 September 2021 to mark the end of the structural work. Work will continue until the summer of 2022 before the future apartments are delivered to their owners.

Steiner organises these events in compliance with the protective measures against Covid-19.

Steiner AG

Steiner AG, one of the leading project developers and general/total contractors (GC/TC) in Switzerland, offers comprehensive services in the fields of new construction, refurbishment and real estate development. The company, which was established in 1915, has constructed more than 1500 residential projects, 540 commercial properties, 45 hotels and 200 infrastructure facilities such as universities, schools, hospitals, retirement homes and prisons. Steiner AG has its headquarters in Zurich and is represented by branches in Lucerne, Basel, Bern, Geneva and Tolochenaz (Canton Vaud).
